Coveting your seasonal celebratory colors!

Now's the perfect time of year to express your inner dazzle with celebratory colors of the season.

EMBRACE SPARKLE AND SHIMMER even more than usual. Think beyond your clothes to jewelry, nail polish, bags, and shoes.

If your coloring leans **cooler or rosy**; silvers, and greys are great for sparkle. Also try ruby, amethyst, rose, sapphire and icy blue.

Think the opposite for **golden appearances**: golds, coppers and bronzes. Or, how about deep teal or light peach?

Glitter not really you? No worries. Don a more subtle pearlescent. Imagine it in a long sleeve drap-y-fabric top, for instance.

GO WITH TACTILE FABRICS like velvet, satin, and cashmere. While I might wear velvet for everyday ☺, you may prefer now.

For **warm skin, eyes and hair** combos, cashmere in milk chocolate or moss green would be terrific.

If you have **ash blond hair or cool black hair**, for example, imagine a forest green satin. How pretty a silk blouse would look in icy blue if your overall look is **pink-ish**.

SLIP ON YOUR PERFECT RED, a holiday color in many traditions like Christmas, Kwanza and Diwali. Start with something relatively easier, like a top (versus, say, lipstick).

If you're light and warm, clear true red is fabulous on you. Dark or light and cool? Try burgundy. For those warm and deep, deep russet or tomato reds light you up.

I help you create sizzle and sass in your outfits with the perfect palette. All things blissful are on sale this season.
