

COLOR AND STYLE OPTIONS

In studio color assessment

In a comprehensive color analysis we test a series of hues and undertones and saturations to uncover those colors that make you pop – where your eyes sparkle, your skin glows and your hair looks vibrant. The goal is to identify a family of colors (your own palette, so to speak) which are congruent and harmonize with your natural coloring.

You'll end up knowing your most suitable palette and we'll walk you through how to use the samples you'll get to take home. You can refer to them so you become dazzling as you get dressed and to make shopping easier.

Conducted at the Color Bliss studio, in Jefferson Westside neighbourhood (also at select clothing shops in town). ***\$130, includes an individual analysis, knowledge of why certain colors are better plus swatch wallet or strip*(*discount of \$20) and instruction on using your palette***

If you prefer, we can lead a gal-pal color party with you and up to 4 friends. With groups of 3 up to 5, the price per person is discounted. Tea and chocolate included. 😊

Also available during on-site color assessment

- Review of 3-4 of clothing items, \$35
- Review of 3-4 pieces of makeup¹ for appropriate colors, \$35
- Review of both 3-4 pieces of makeup and 3-4 pieces of clothing, \$65

Closet color curation

Ready to tap your inner dopamine when you get dressed? Let your light shine through by starting with your closet. Here we inspect your closet to make sure your compelling colors permeate it.

You'll end up with more flattering colors in your pieces and know transition colors that are 'less than' best to keep as you build out your full spectrum over time.

¹A full makeup review for appropriate colors can be paired with Color Curation or Outfit Assembly for an additional fee.

COLOR AND STYLE OPTIONS

Conducted where you live (or wherever else your closet might be ☺). Can be combined with **Pieces Purge** and/or **Outfit Assembly**. **\$65/hour, minimum \$80**

Piece purge

Such a common complaint: “My closet’s full, but I have nothing to wear.” You probably just have the wrong pieces. In **Piece Purge**, we’ll go on a hunt for your best options. We’ll take away those that don’t fit, those you haven’t worn in two years or more, and those not worth repairing. We may create a ‘maybe’ pile – where you could alter it, or adjust it in some other way change so it’s better for you. We very likely will have a donation pile (which you can bring to your next clothing swap ☺). The goal is fewer pieces that you’ll actually wear.

Once we’ve finished, you’ll notice that the pieces you love have room to breathe. You start seeing outfits you couldn’t see before. Getting dressed takes less time but looks more put together. Your style becomes clearer, more refined—revitalized in a way that happens when you strip away what’s been weighing it down.

Neckline niceties

Let’s face it, our faces are typically where we center our attention as we interact with others. Put your best face forward. The right neckline bolsters the confidence you already feel with your personalized color and helps others focus on the fabulous you.

In this offering, we look at various lines (straight, curved, angled) to determine which are most coherent with your face shape and neck length. Once you know that, you’ll be amazed at how much time you save looking for new tops. Since some just aren’t you, you no longer waste money buying what doesn’t suit. Who wouldn’t want that?!

Conducted at the Color Bliss studio, in Jefferson Westside neighbourhood. **\$55.**

Super silhouette

Even when you know colors that complement you, if the clothing lines are wrong, you’re still going to feel less than stellar in your clothes. Consider sleeve length, for example: Those long sleeves -- they’re not the best if your arms are proportionally shorter. Three-quarter sleeves, however look terrific. We take the guesswork out of choosing the best styles for your fabulous figure.

COLOR AND STYLE OPTIONS

With simple tools, like a tape measure, we find out how your body is shaped top to bottom, side to side. Armed with that insight, we then recommend styles that flatter your unique shape.

Outfit assembly

Your closet likely contains tops and bottoms and now you know some flattering colors. That's a start. How do you put them together? How many colors should you wear at once? What proportional arrangements of color combinations make outfits sing? Should you go with neutrals or would that be boring?

In ***Outfit Assembly***, we create two to three looks for your major daytime activities (parenting, work, civic engagement) and, if desired, one for a leisure activity. Once we begin to assemble outfits, we'll also identify any gaps, where a new piece might just complete an outfit. You'll end up with fresh ideas of how to combine what you already own. Putting them on will bring smile to your face and spring in your step.

Wardrobe wonder

Are the clothes in your closet working together? It's amazing how many outfits you can create with the right pieces. A few bottoms, a few tops, a few-pieces to pull it all together. We'll consider some dashes of dazzle, a fairly limited color scheme (flattering to you, of course) and ideally striking silhouettes for your shape. Woohoo! You've got what the style industry calls a 'capsule' or 'style uniform.' It simplifies your life so getting dressed is a cinch.

We can create the Wardrobe wonder for a given season, for major ways you spend your time (e.g., civic engagement, work, creating art, etc). and/or by season. Once you've streamlined to essential combinations, your pieces have more room to breathe and you can see what you have. You can grab and go in the morning and get dressed knowing you look like a million bucks.
